**Annotation Guideline 2.0**

For all the variables, we are shifting to an actual 'mention of' approach, so please evaluate the text specifically rather than the broader context or post.

1. Inclusion.human1

*Definition*: Include instances discussing GLP1 medication in the context of cancer. (Unchanged from before)
*Labeling*: Yes or No, depending on whether the post clearly discusses GLP1 medications in relation to cancer.

2. Exclusion_reason.human1

*Definition*: Reason for excluding an instance. (Unchanged from before)
*Labeling*: Examples in drop down.

3. Is_survivor.human1

*Definition*: Indicates if the post mentions a cancer survivor.
*Labeling*: Yes or No, depending on whether the individual mentions surviving cancer.
Example: "I've had cancer treatment" -> Yes.

4. Is_survivor_and_taking_med.human1

*Definition*: Indicates if a cancer survivor is also taking GLP1 medication.
*Labeling*: Yes or No.

5. Family_cancer_history.human1

*Definition*: Mentions of family history of cancer.
*Labeling*: Yes or No.

6. Cancer_type.human1

*Definition*: Type of cancer mentioned.
*Labeling*: Pancreatic, Thyroid, Breast, Gyn, Other, No type mentioned.

7. Other_cancer_type.human1

*Definition*: Mentions of cancer types not otherwise listed or unusual cancers.
*Labeling: *if an unusual or unlisted type of cancer is mentioned, type in string.

8. Is_survivor_weight_loss.human1

*Definition*: Indicates if the survivor experienced weight loss.
*Labeling*: Yes or No, depending on whether weight loss is explicitly mentioned in connection to being a survivor.

9. Cancer_diagnosis_after_medication.human1

*Definition*: Mentions of cancer diagnosis occurring AFTER starting GLP1 medication.
*Labeling*: Yes or No.

10. Mentions_cancer_risk.human1

*Definition*: Mentions related to increased cancer risk and GLP1 medication. Does not need to be related to humans; if they mention rats or other animals, label as Yes. If they mention a decrease in cancer risk, label as No (note: another variable exists for this).
*Labeling*: Yes or No.

11. Concerned_about_cancer_risk.human1

*Definition*: Mentions concern regarding cancer risk (e.g., 'I'm not concerned,' 'I am concerned').
*Labeling*: Yes or No.

12. Seeking_cancer_risk_data.human1

*Definition*: The text mentions the author seeking information or data on cancer risk.
*Labeling*: Yes or No.

13. Discussed_risk_with_physician.human1

*Definition*: Mentions discussing cancer risk with a healthcare professional, even if the post is recommending someone talks to their own physician about it.
*Labeling*: Yes or No

14. discussion_GLP1_decreasing_cancer_risk.human1

*Definition*: Mentions that GLP1 may reduce cancer risk.
*Labeling*: Yes or No.
